

# Prakasit Lertprakitsin

## Profile

I really enjoy spending my time learning new things and getting hands-on by trying and failing to better understand things. This is also the case when it comes to work. I often learn from my mistakes in order to become a better person than I was yesterday. I usually plan ahead to make sure I use my time in one day effectively and have enjoyment in my work.

## Education

2018 - 2020

High Vocational Certificate  
Hatyai Technical College

I have learned more about programming, including web development, creating microcontroller projects, and IoT.

2015 - 2018

Vocational Certificate  
Hatyai Technical College

I learned about basic carpentry and I learned how to program for the first time.

2012 - 2015

High School  
Hatyai Wittayalai Somboonkulkanya School

During my high school years, I focused on activities, and I was a school basketball player.

## Experience

2020 - Present  
True Corporation

**Operating System Management**  
Consumer Service

I am responsible for managing data, allocating and distributing data appropriately, and being flexible. The data is very large, so I must have a high concentration and have good work planning.
